Throughout the English-speaking world, and in the many other countries where analytic philosophy is studied, Hillel Steiner is esteemed as one of the foremost contemporary political philosophers. This volume is designed as a festschrift for Steiner and as an important collection of philosophical essays in its own right. The editors have assembled a roster of highly distinguished international contributors, all of whom are eager to pay tribute to Steiner by focusing on topics on which he himself has concentrated. Some of the contributors engage directly with Steiner's work, whereas others focus not directly on his writings but instead grapple with issues that have figured prominently therein. Each essay seeks to advance the debates in which Steiner himself has so notably participated. The study concludes with a response by Steiner himself.
